Meet Abril Santos.

Short biography

Abril Santos is the founder and destination wedding planner behind The Lux Weddings. She plans celebrations across Spain for international couples, acting as their direct, bilingual point of contact from the first conversation through wedding-day delivery.

Extended biography

Based in Spain, Abril Santos leads The Lux Weddings with a personal, full-service approach. She helps international couples turn an idea into a celebration that works in its setting: shortlisting venues and suppliers, comparing proposals, managing budgets, contracts and payments, coordinating site visits and menu tastings, shaping design decisions, organising guest logistics, briefing suppliers and building the production schedule. On the wedding day, she oversees setup and delivery so the couple can remain present. Abril works in English and Spanish and remains the couple's direct planning contact throughout the process.
